IMMERSE YOURSELF

Chinese Arts Centre is the leading organisation for the promotion of contemporary Chinese art in the UK.

Working with the best creative talent we run a lively programme of exhibitions, residencies, engagement projects, festivals, international projects and events which support innovation and reflect the dynamism of contemporary Chinese art.

As part of our education and engagement programme, we are excited to offer a range of contemporary art workshops and creative events both within our centre and out in schools and community groups in your local area.

WORKSHOPS

Chinese Arts Centre can deliver workshops exploring themes within our current exhibition and residency programme, or tailor workshops to your interests. Artists are available to work with a wide range of groups across the North West region including schools, adults and SEN groups. Workshops can be delivered at a venue of your choice or within our education suite.

PROJECTS

We are always interested in developing exciting contemporary arts projects working with a wide range of communities, with different partners across the Northwest. If you would like to work together to develop an exciting project then feel free to get in touch with us!

ARTISTS

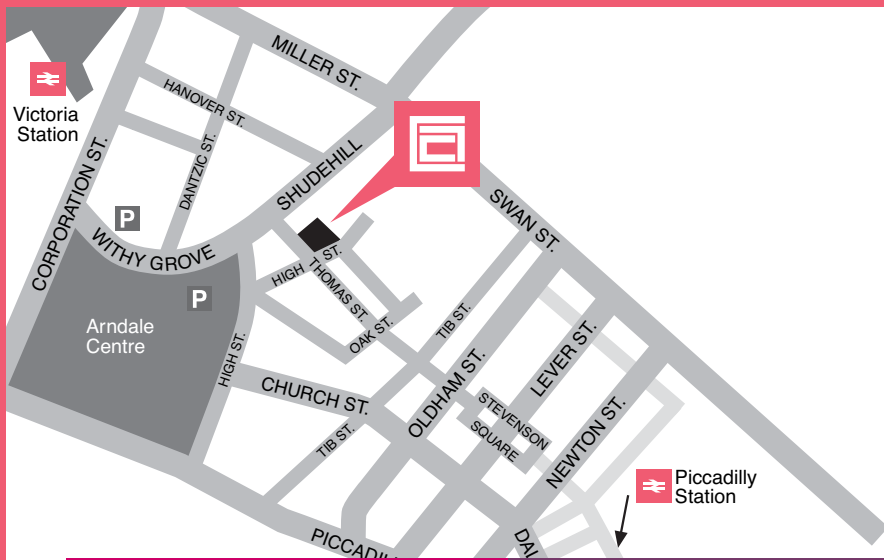

We have a team of dedicated artists covering artistic practice from textiles, film, photography, drawing, illustration, animation, performing arts, graphic design, large-scale installation projects and much more!

TOURS

We have a continually changing exhibition and residency programme and are able to give your group free guided tours, often with the artists themselves or the curator. This combined with a workshop would make an exciting day out for your group!
